

Bear Creek Parkway Extension

The Environmental Process

The State Environmental Policy Act (SEPA) is intended to ensure that environmental values are considered during decision making by state and local agencies.

The City of Redmond has determined that the Bear Creek Parkway Extension should be evaluated with a Supplemental Environmental Impact Statement (SEIS). This document supplements the 1995 City Comprehensive Plan EIS.

The Bear Creek Parkway SEIS will include the following steps

The SEPA Process...

- Considers environmental information before committing to a particular course of action.
- Identifies and evaluates probable impacts, alternatives and mitigation measures.
- Encourages public involvement in decisions.
- Prepares environmental documents that are clear and concise.
